Fundamentals of Management

2026 Spring

Dr. Liuxin Yan

Assistant Professor

Leadership and Organization Management

School of Economics and Management

Contact Information

- Email:
yanlx@sem.tsinghua.edu.cn
- Office: Lihua Building B241
- Office hour:
 - Thursday 10:00am – 12:00pm
 - *By appointment* if you cannot make it

A Few Important Notes

- Email is the best way to contact me
 - Use email for attendance notes or any official requests
 - Do not message me on WeChat privately for official matters and use email for record-keeping
- WeChat group is for quick announcements
 - Check messages frequently for updates
 - Ask clarifications in the group chat; TA and I will respond when available.
- Mutual respect
 - Be professional and considerate in all communication
 - Neither the TA nor I am a 24/7 chatbot 😊

Assessment

No.	Assessment method	Percentage
1	Final assessment	20%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

Assessment

No.	Assessment method	Percentage
1	Final assessment	20%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

Final Assessment (20%)

- Open book, open notes, online assessment
 - But trust me, you won't do well if you don't pay attention in class
- Short-answer questions regarding the key concepts and theories learned in class
- More details will be announced in the 2nd half of the semester

Assessment

No.	Assessment method	Percentage
1	Final assessment	25%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

Individual papers (30%)

- Two individual papers
 - 1st paper (15%):
 - Instructions will be announced in Week 5
 - Deadline: Week 8 (April 19th)
 - 2nd paper (15%):
 - Instructions will be announced in Week 9
 - Deadline: Week 14 (May 17th)

Assessment

No.	Assessment method	Percentage
1	Final assessment	20%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

Campus Photo Taking Exercise (5%)

- A fun activity designed to learn organizational culture
- Take 3-5 photos that represent what you believe is unique about THU's culture
- Write a 1-2 paragraph reflection for each photo
 - Due on the first day of Week 12 (May 17th)

Assessment

No.	Assessment method	Percentage
1	Final assessment	20%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

Group Project & Presentation (25%)

- 5-person group by Week 4
 - You have the option to form your own group
- Devise and execute in class a **role-play exercise** involving classmates that exposes an aspect of **one of the business psychology topics**
 - E.g., Moral justification, sunk cost bias, moral credentialing etc.

Assessment

No.	Assessment method	Percentage
1	Final assessment	20%
2	Individual paper #1	15%
3	Individual paper #2	15%
4	Campus photo taking exercise	5%
5	Group presentation	25%
6	Participation	20%

A Few Rules

- Inform my TA at least one day in advance for excused absence
 - Missing more than 5 classes will automatically fail the course, regardless of whether the absences are excused or unexcused
- Simply showing up is not enough—active engagement matters
 - Engage in discussions, share insights, and ask questions
- Use of laptops & devices
 - Allowed for note-taking and class-related activities
 - No messaging, social media, or unrelated browsing

- ***Management***: the process of getting things done efficiently and effectively through and with people
 - *Efficiency*
 - *Effectiveness*

Good management requires balancing both efficiency and effectiveness

Level of Management

First-Line Managers

Oversee day-to-day operations

Supervise operative employees

Example: Shift supervisor at Starbucks

Middle Managers

Bridge between top and first-line managers

Implement strategic goals

Example: Department manager at a hospital

Top Managers

Set the organization's vision and strategy

Make long-term decisions

Example: CEO of Google

Four Management Processes

Managers perform four key functions:

- **Planning**
- **Organizing**
- **Leading**
- **Controlling**

Henri Fayol
Father of modern management theory

Management Skills

Robert Katz identified **four key skills** managers need:

- **Conceptual Skills**
- **Interpersonal Skills**
- **Technical Skills**
- **Political Skills**

We will cover....

Week	Level	Topic
1	Individual 	Values, Attitudes, and Ethics
2		Emotion and Mood
3 4		Personality and Individual Differences
5 6		Motivation
7 8	Interpersonal 	Managing Groups and Teams
9		Leadership
10		Diversity and Conflict
12		Decision-Making and Influence Tactics
13 14	Contextual 	Organizational Culture and Change

Ethical Dilemmas in Management

- Managers frequently face **ethical dilemmas**
 - **Fairness vs. Profitability**
 - **Honesty vs. Loyalty**
 - **Short-Term Gains vs. Long-Term Sustainability**
 - **Individual Rights vs. Organizational Goals**

Values, Attitudes, and Ethics

- ***Values:*** beliefs that select modes, means, and actions
 - Guiding principles in people's lives
- ***Attitude:*** individuals' favorable or unfavorable evaluative reactions toward something or someone

Values in Organization

- **Terminal value:** reflect long-term life goals (e.g., family; a sense of achievement; happiness)
- **Instrumental value:** preferred **means** of achieving terminal values

Reflection

- People do not always share the same ethical perspectives
 - What seems right to one person may seem wrong to another
- Ethical decisions are not always black & white
 - There is rarely a single correct answer that fits all situations.
- You will work with people who have different ethical viewpoints
 - Understanding diverse perspectives is essential for ethical decision-making and leadership

Conflicts Among Values

- **Intrapersonal value conflict:** people would experience stress when their terminal values and instrumental values conflict with each other
- **Interpersonal value conflict:** conflicts arise two individuals hold different values
 - Personality clashes
- **Individual-organization value conflict:** Employees' values may conflict with the values of the organization
 - Closely related job satisfaction, productivity, commitment

Attitudes

I'm sorry you mistook my
attitude for my
personality.
My personality is
who I am. My
attitude depends
on who you are.

your  cards
someecards.com

Attitudes

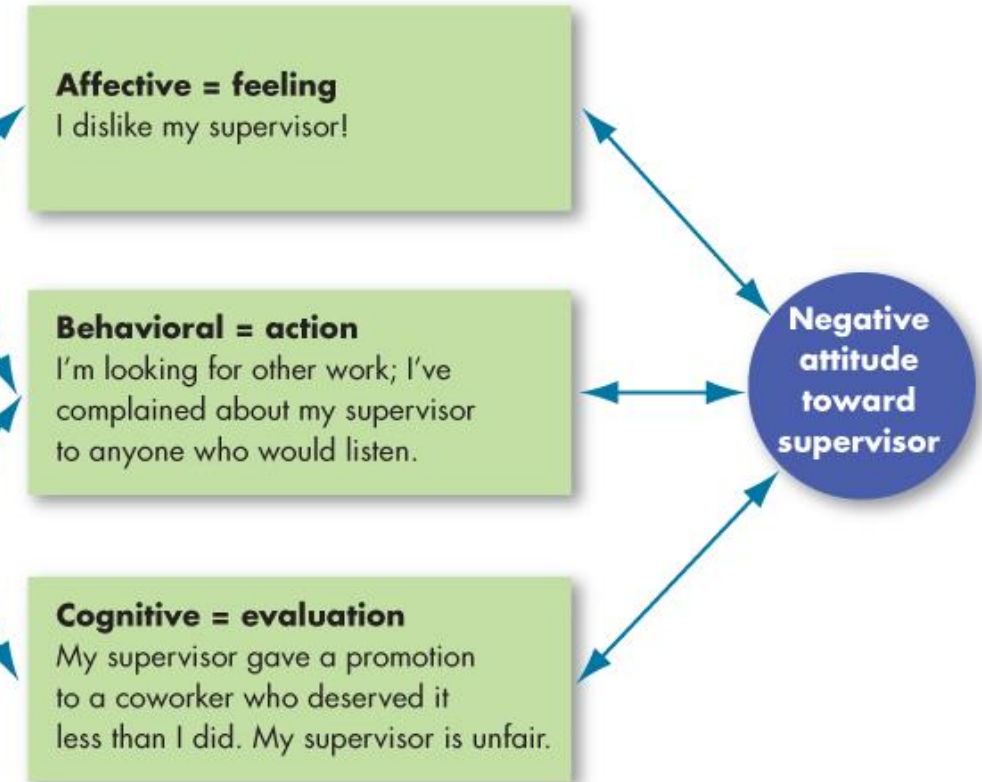

- **Attitude:** individuals' favorable or unfavorable evaluative reactions toward something or someone
 - They help explain how people think, feel, and act toward something
- Relatively stable, but not as stable as personality
 - Like-dislike
 - Satisfied-unsatisfied
 - Committed-uncommitted

Three Components of Attitudes

- Cognitive Component (Belief)
- Affective Component (Emotions & Feelings)
- Behavioral Component (Intentions & Actions)

Affect, behavior, and cognition are closely related.

Attitudes and Behaviors

- It Depends!
 - Attitude's importance
 - Accessibility
 - Presence of social pressures
 - Whether a person has direct experience with the attitude
- The attitude-behavior relationship is likely to be much stronger if an attitude refers to something with which we have direct personal experience

Attitude: Job Satisfaction

Job Performance

- Happy workers are more likely to be productive workers.

Organizational citizenship behaviors

- People who are more satisfied with their jobs are more likely to engage in OCB.

Customer Satisfaction

- Satisfied employees increase customer satisfaction and loyalty.

Life Satisfaction

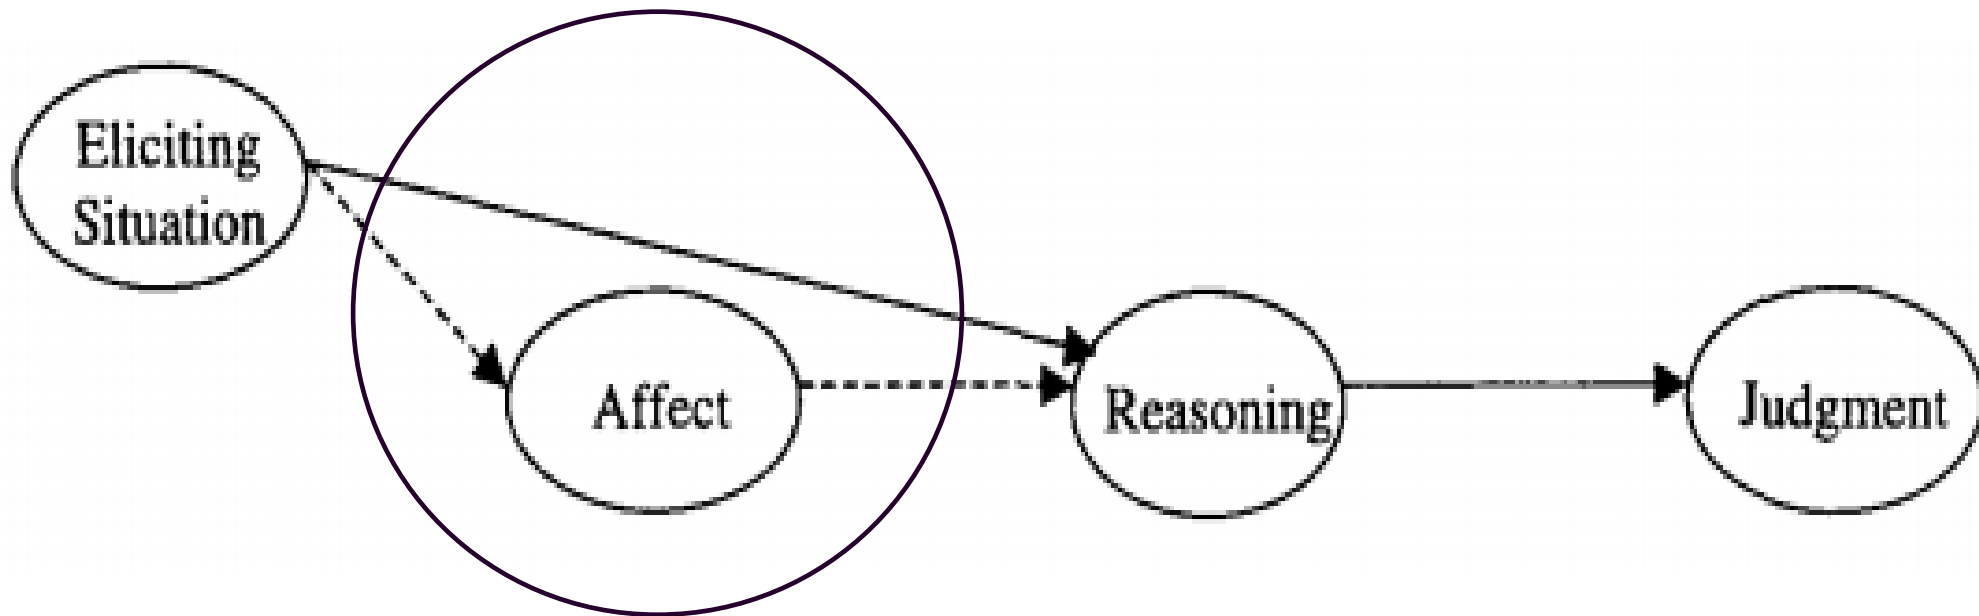

- Research shows that job satisfaction is positively correlated with life satisfaction.

Other Employee Responses to Dissatisfaction

- **Counterproductive work behavior:** actions that actively damage the organization, including stealing, behaving aggressively toward coworkers, or being late or absent.
- **Absenteeism:** the more satisfied you are, the less likely you are to miss work.
- **Turnover (Exit):** a pattern of lowered job satisfaction is the best predictor of intent to leave.
- Managers Often “Don’t Get It”

- How should I live my life?
- What sort of person should I strive to be?
- What values are important?
- What standards or principles should I live by?

- Ethical decision-making in our everyday lives is like a camera in *automatic* mode
- The intuition ethic is a good starting point and embedded in codes of conduct at many organizations

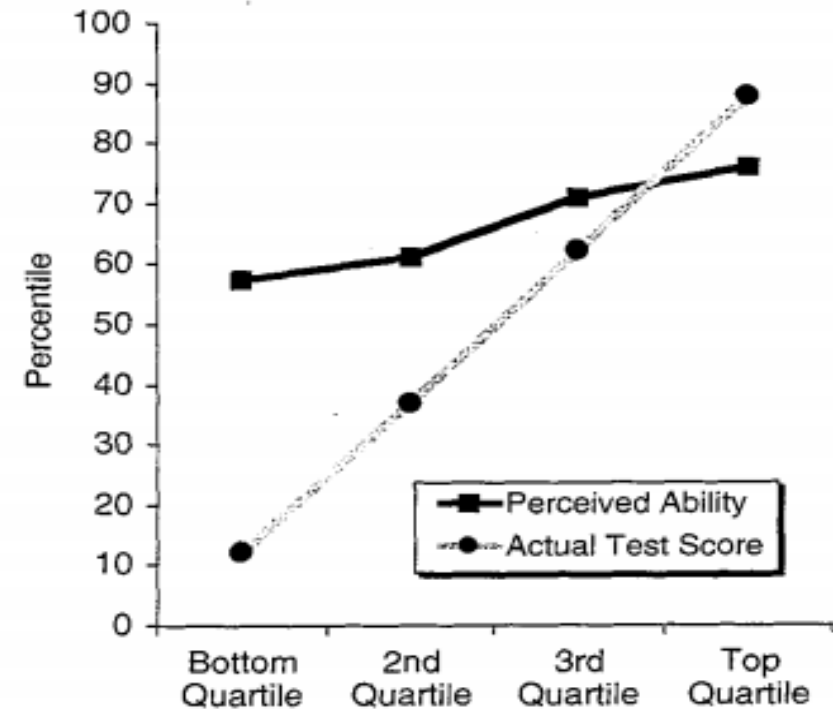

Why Do People Do Bad Things

- Have you done **anything unethical** in your life before?
- Research findings: **Most (if not all) of us** feel comfortable engaging in a certain degree of unethicality

Rationalization

- On the one hand, we like to think of ourselves as good people.
 - How ethical do you think you are compared to other people in the business school?
 - On a scale of 0 to 100 rate yourself relative to your fellow students
 - Median = 70
 - “Unskilled and unaware”

Outcomes = Humor,
grammar, logic, IQ, etc.
(Kruger & Dunning, 1999)

Why Do People Do Bad Things

- *Moral disengagement*: the process by which individuals convince themselves that ethical standards do not apply to them (Bandura, 1999)

Why Do People Do Bad Things

- Moral justification
- Euphemistic labeling
- Displacement of responsibility
- Diffusion of responsibility
- Attribution of blame
- Dehumanization
- Distortion of consequences
- Advantageous comparison

What Else? Moral Credentialing

- Everyone keeps an internal “moral bank account”
- People feel entitled to commit a transgression as long as they *feel* that they have accumulated enough moral credits before
